

Well Grounded Electrical Services loves being a part of EV revolution!

In an effort to simplify the bidding, and install more EV chargers we ask you to fill out the following questionnaire and return to anthony@wgelectrical.com (with pictures required below) to help us determine the cost of install without a site visit.

Well Grounded Electrical Services like to do these projects hourly plus materials and with this guide we can give you a 15% +/- estimate over the phone.
